

Public Health Committee,

As a law abiding citizen of Connecticut, I'm tired of the relentless gun control disguised as crime prevention, public health or whatever term you want to use.

Any gun control infringes on my Constitutionally prtected 2nd Amendment Right to protect me, my family and my community.

Criminals do not obey the law.

If you want to reduce gun violence, stop going soft on crime and start enforcing the

laws that are already on the books.

The Connecticut State Constitution

Article I, Section 15

"Every citizen has a right to bear arms in defense of himself and the state."

I oppose S.B. 477

I oppose H.B.5397

I urge you to vote teh same!

I concerned law abiding citizen,

Jeffrey Chartier
